
Appendix 4

A Model of the Selection Function

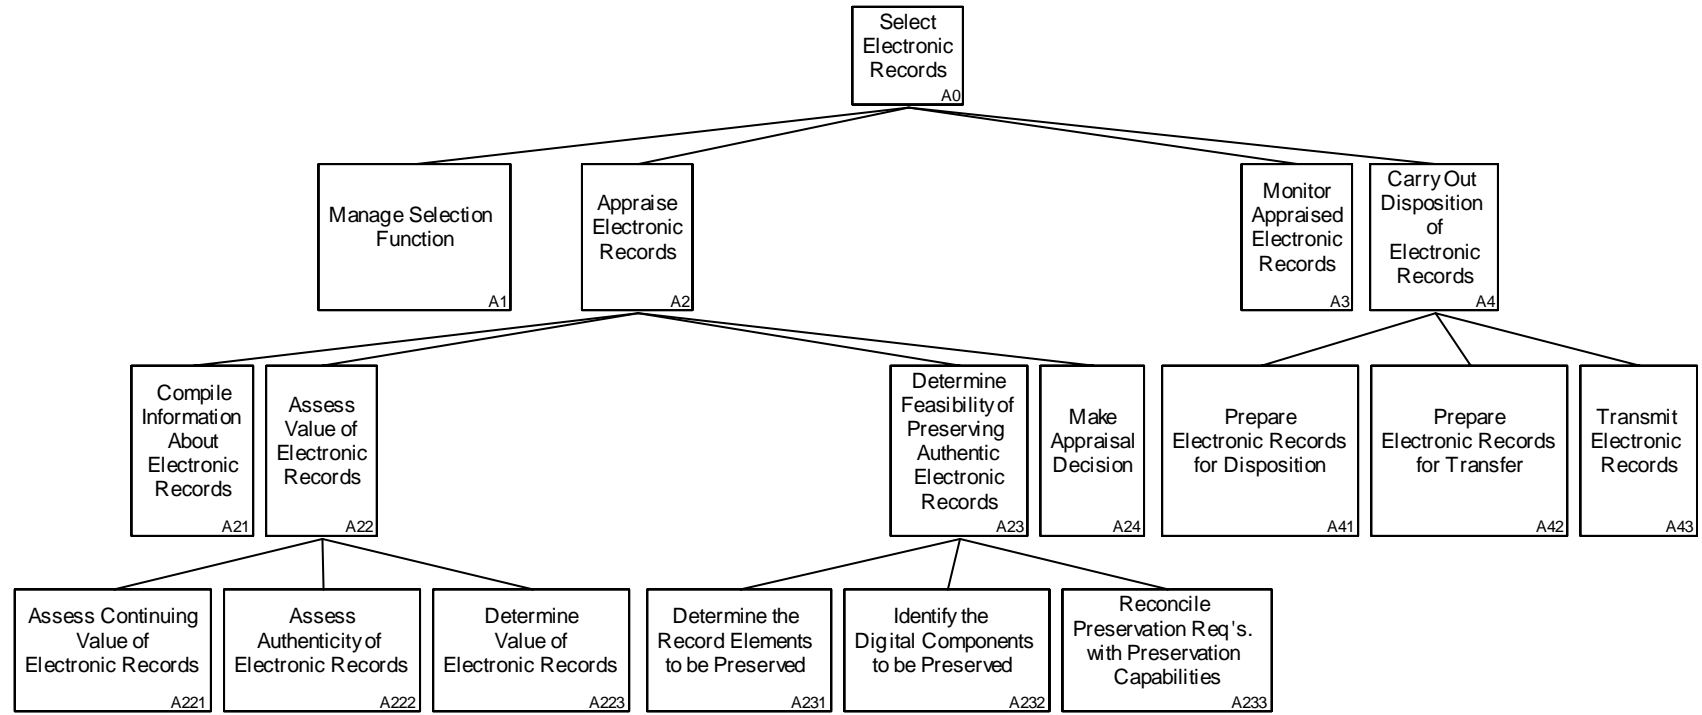

Appraisal Task Force

June 2001

i) Model Diagrams

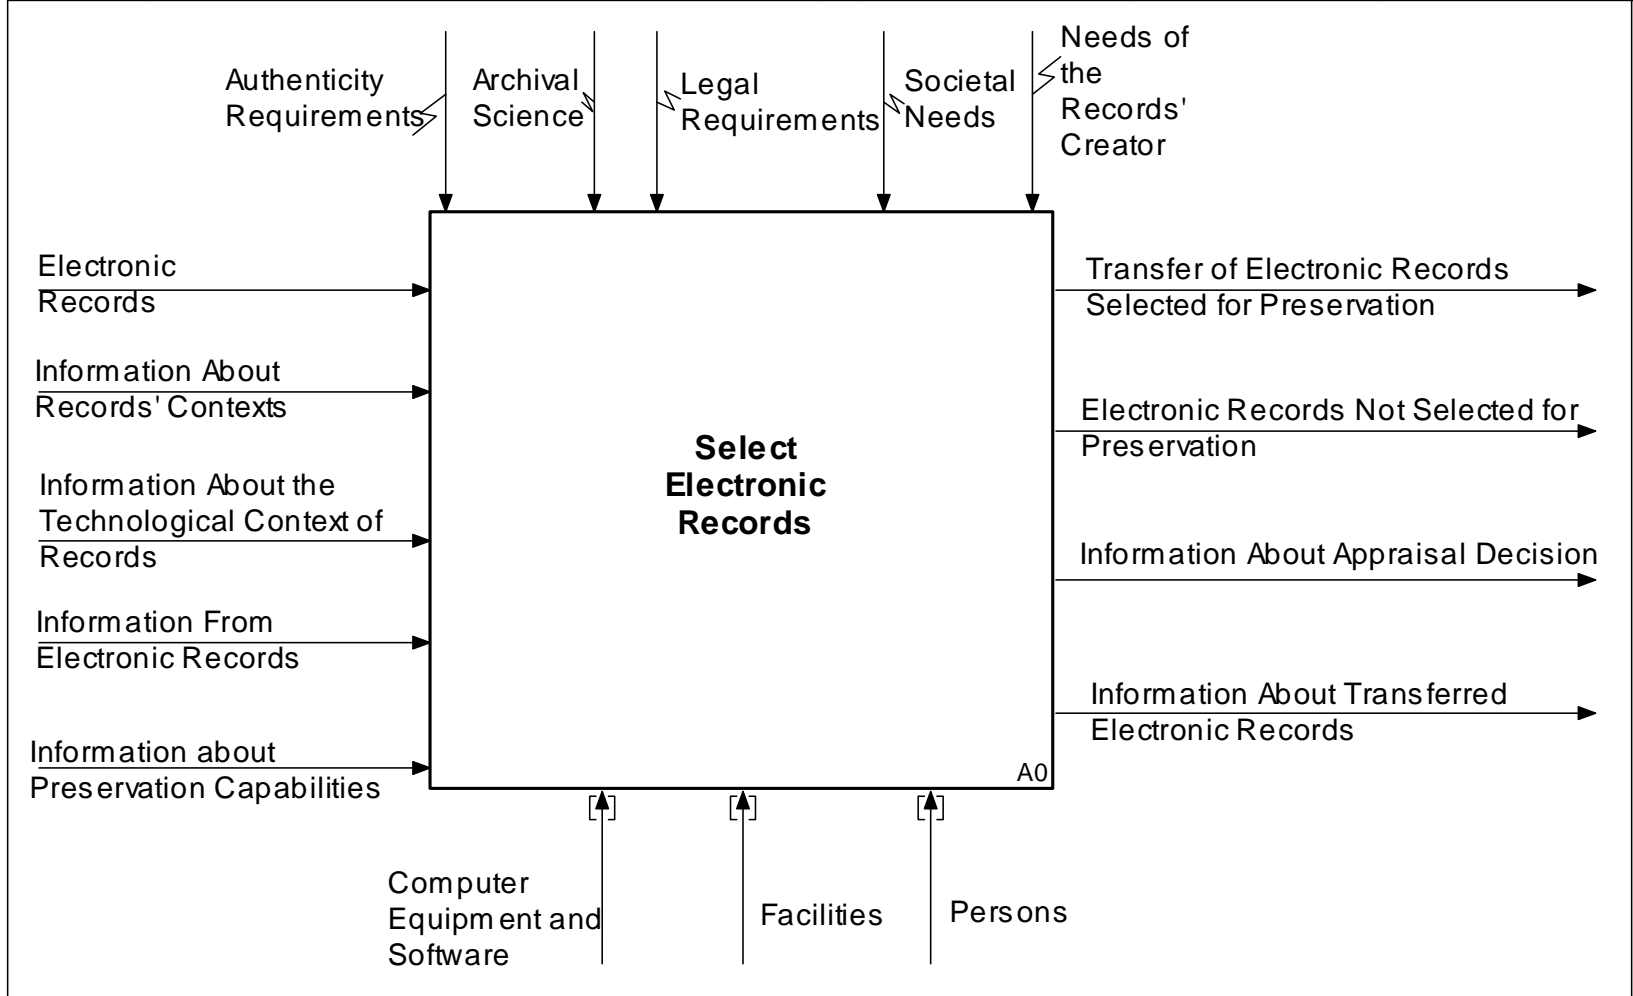

MODEL INFORMATION	
TITLE	<i>Select Electronic Records</i>
AUTHOR	Appraisal Task Force, InterPARES Project
MODEL TYPE	IDEF(0) function model. IDEF(0) (Integration Definition for Function Modelling) is a U.S. Federal Information Processing Standard (Publication 183, as issued by the National Institute of Standards and Technology). "A function model is a structured representation of the functions, activities or processes within the modelled system or subject area." See < http://www.idef.com > for more information.
PURPOSE	The purpose of this model is to define the activities involved in selection of authentic electronic records for long-term preservation.
VIEWPOINT	The entity (archival institution or program) responsible for long-term preservation of electronic records of an organization (government, corporate body, or institution).
SCOPE	Covers all the activities conducted by the preserver in appraising and carrying out disposition of electronic records.
