

# InterPARES Project

International Research on Permanent Authentic Records in Electronic Systems

How do you know it's  
the *real* thing?

Today?

100 years from  
*now*?

## Research Domain 1

What is required to prove the authenticity of electronic records?

## Research Domain 2

How do we select electronic records for preservation?

## Research Domain 3

How do we preserve authentic electronic records?

## Research Domain 4

What policies, strategies & standards will protect the authenticity of electronic records over time?

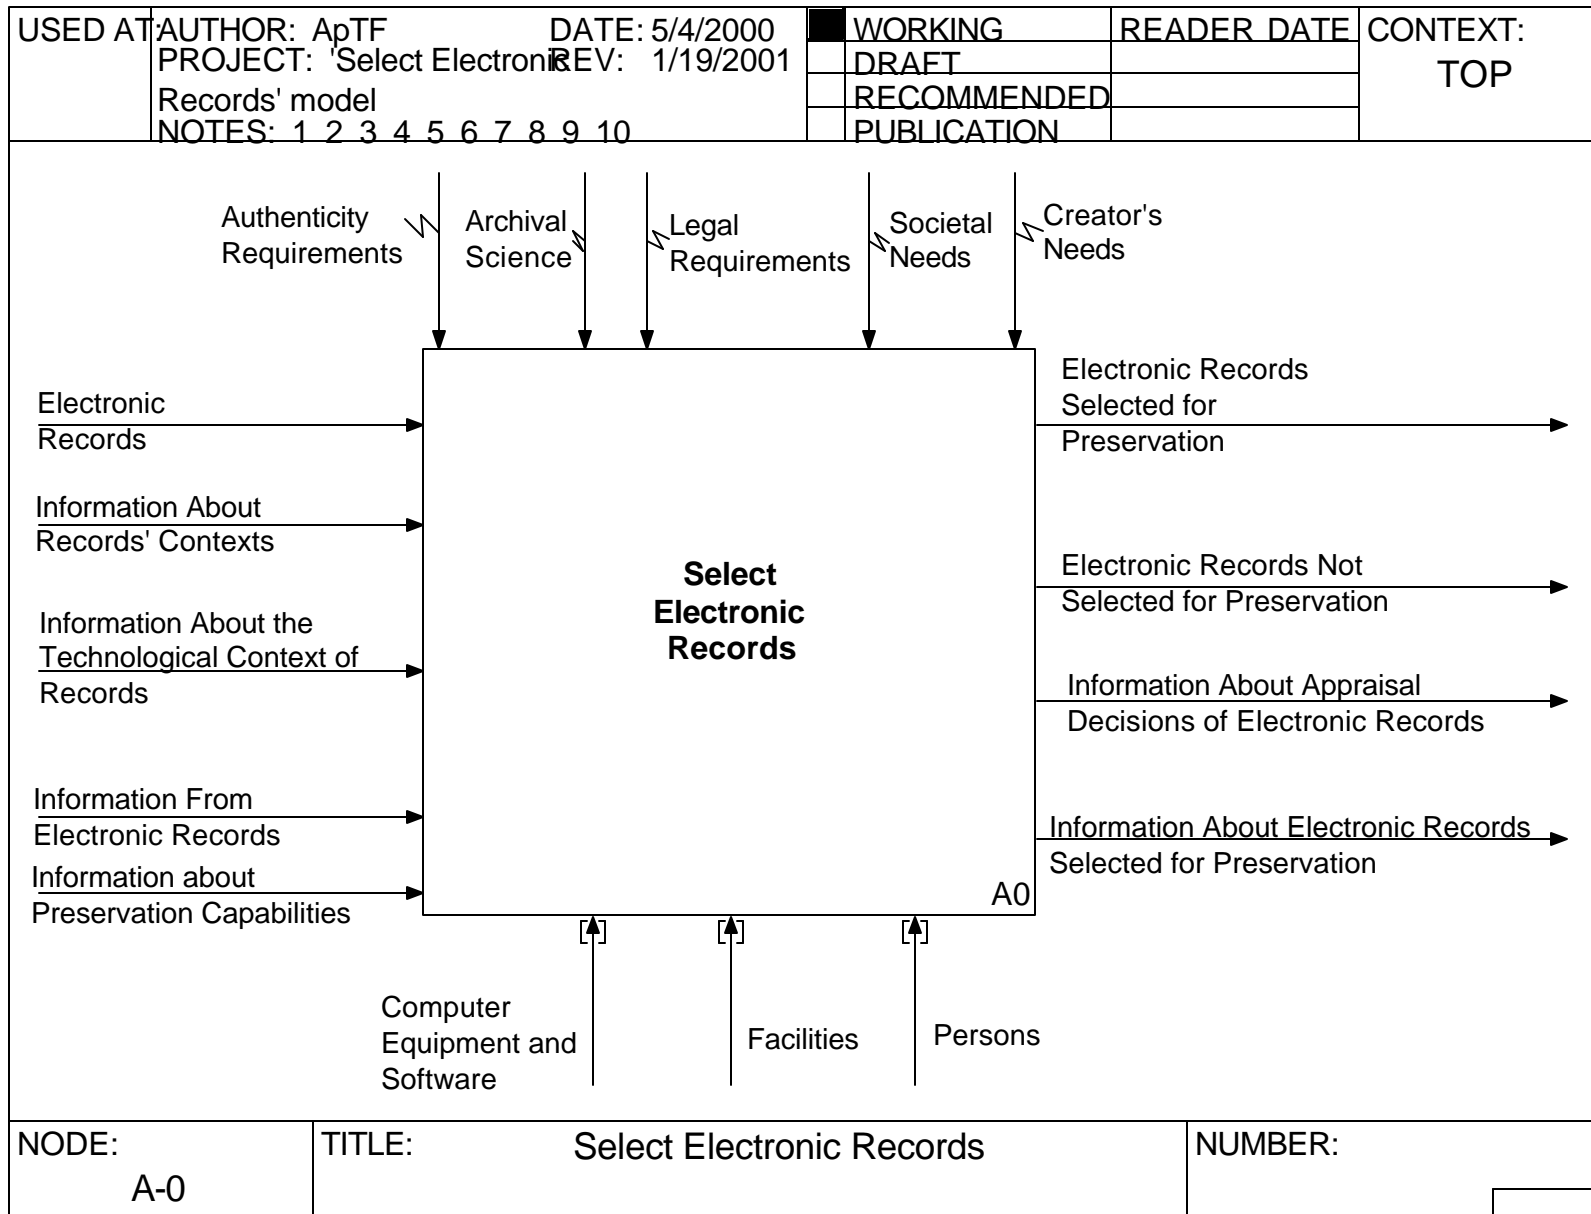

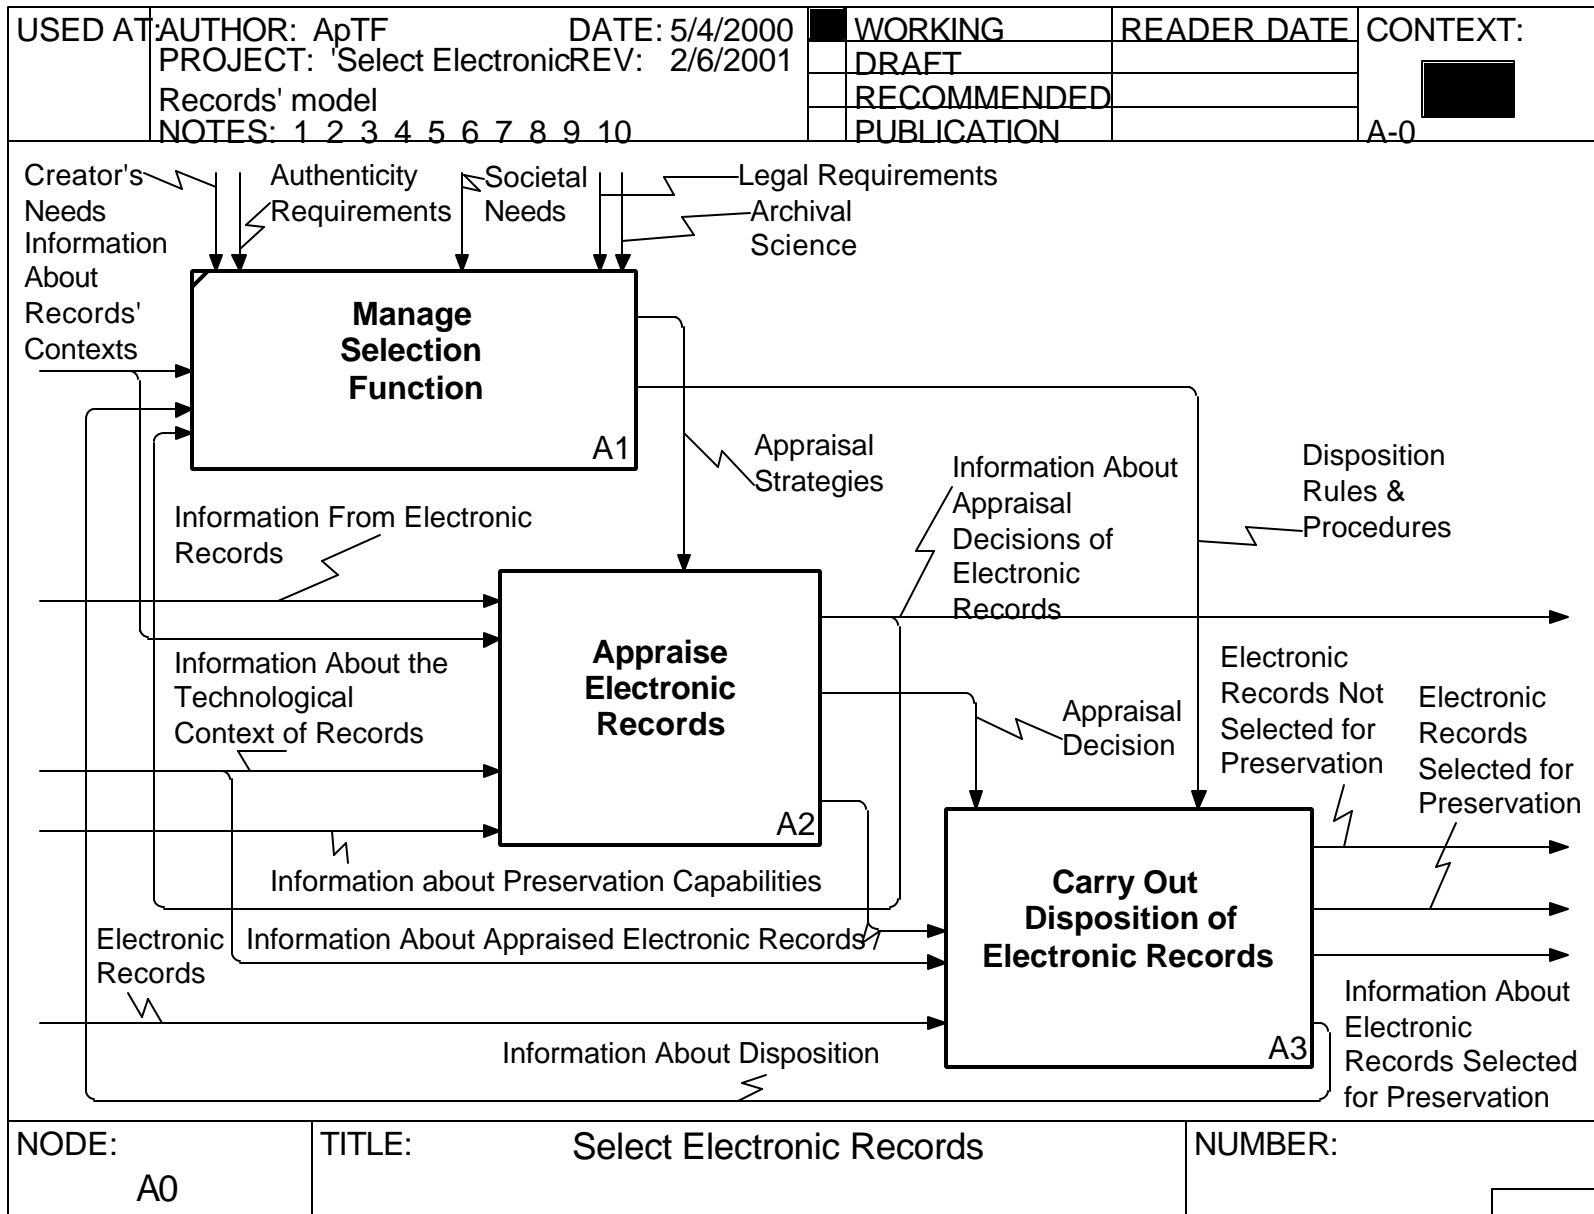

**Holding** governments, organizations, and individuals accountable

## Research benefits:

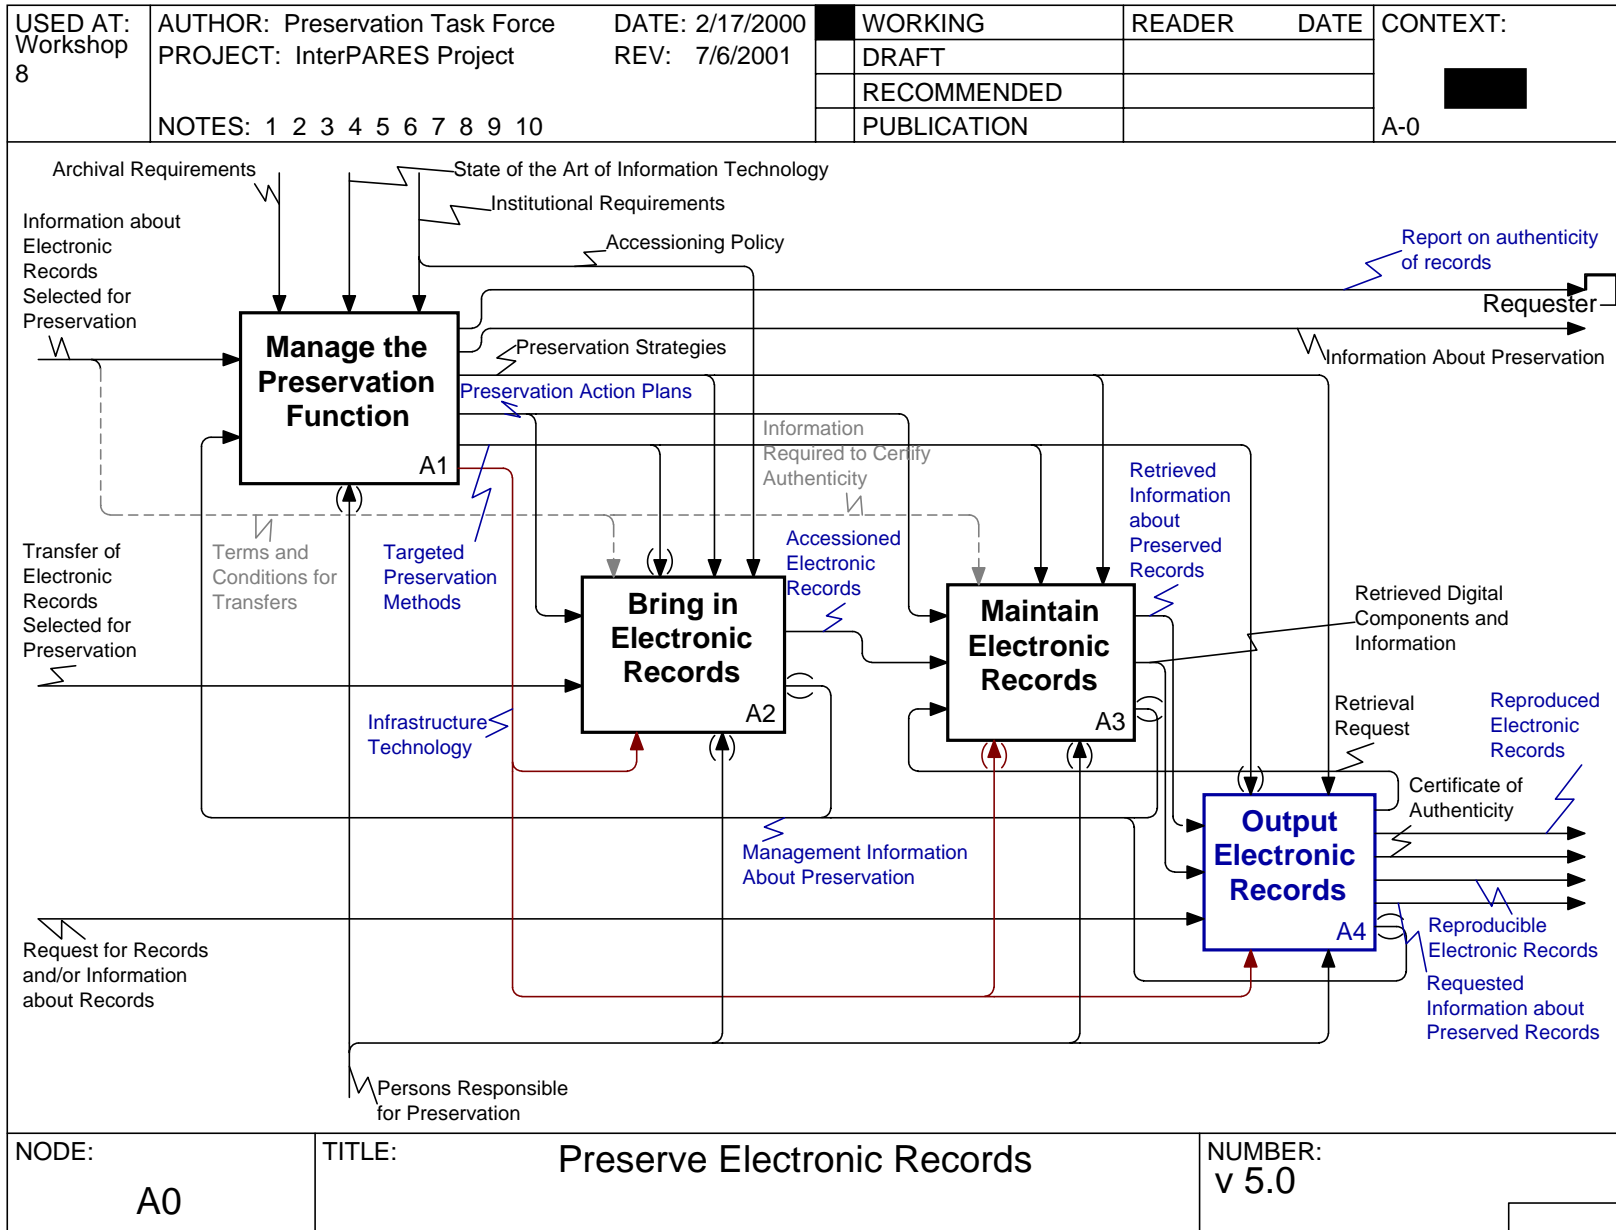

**Ensuring** the trustworthiness of research sources and data

**Preserving** the authentic recorded memory of our society

## Preserving Authentic Electronic Records A Report on the InterPARES Project

### US-InterPARES Project

International Research on Permanent Authentic Records in Elec tronic Systems

Philip B. Eppard  
ECURE 2001

## Purpose of the InterPARES Project

- ◆ To develop the theoretical and methodological knowledge essential for the permanent preservation of records generated electronically.
- ◆ To formulate model policies, strategies, and standards capable of ensuring their preservation.

### US-InterPARES Project

International Research on Permanent Authentic Records in Elec tronic Systems

## Previous UBC Project

### Born out of previous UBC research.

- "[The Preservation of the Integrity of Electronic Records](#)" ("The UBC Project").
- Defined the requirements for creating, handling and preserving reliable and authentic electronic records in *active* recordkeeping systems.

### With U.S. Department of Defense.

- Developed DoD Records Management standard 5015.2.

### US-InterPARES Project

International Research on Permanent Authentic Records in Elec tronic Systems

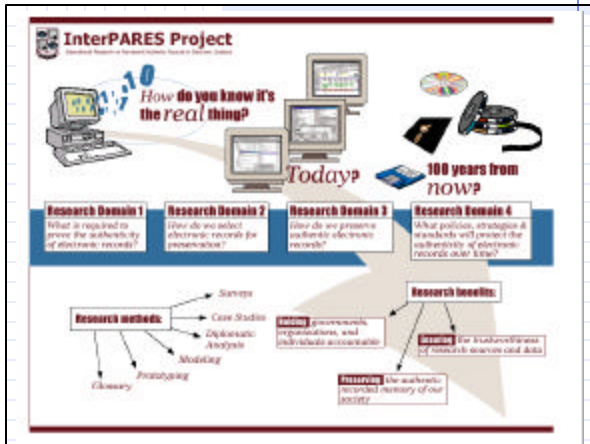

## Participants

- ◆ International Team
- ◆ National Research Teams
  - Canada, USA, Italy, Australia, China
- ◆ Multi-National Research Teams
  - Europe (UK, Ireland, France, Netherlands, Sweden)
- ◆ National Archival Institutions
- ◆ Global Industry Team

### US-InterPARES Project

International Research on Permanent Authentic Records in Elec tronic Systems

## Organization

**Task Forces**

|                 |                 |
|-----------------|-----------------|
| 1. Authenticity | 3. Preservation |
| 2. Appraisal    | 4. Strategies   |

Glossary Committee

 **US-InterPARES Project**  
International Research on Permanent Authentic Records in Electronic Systems

## Methods & Analysis

- ◆ Contemporary Archival Diplomatics
- ◆ Functional Analysis
- ◆ Narrative Analysis
- ◆ IDEF0 Activity Modeling

 **US-InterPARES Project**  
International Research on Permanent Authentic Records in Electronic Systems

## Authenticity Task Force

**Research Question:**

- What is required to prove the authenticity of electronic records?

**Research Methods:**

- Literature Review
- Functional & Narrative Analysis of Case Studies
- Contemporary Archival Diplomatic Analysis

 **US-InterPARES Project**  
International Research on Permanent Authentic Records in Electronic Systems

## Template for Analysis

Based on elements of records identified by the study of diplomatics

1. Medium
2. Extrinsic elements
3. Intrinsic elements
4. Annotations
5. Context or framework

**US-InterPARES Project**  
International Research on Permanent Authentic Records in Elec tronic Systems

## Systems Studied by ATF

- Relational databases
- Accounting systems
- Records management systems
- Patent grants systems
- Student Registration Systems
- Info Management Systems
- Government Registries
- Computer Aided Design

**US-InterPARES Project**  
International Research on Permanent Authentic Records in Elec tronic Systems

## Conceptual Requirements for Assessing Authenticity

### Benchmark requirements

- Before records are transferred to the preserver's custody

### Baseline requirements

- After records are transferred to the preserver's custody

**US-InterPARES Project**  
International Research on Permanent Authentic Records in Elec tronic Systems

## Benchmark Requirements

1. Expression of Record Attributes & Linkage to Record
2. Access Privileges
3. Protective Procedures: Loss and Corruption of Records
4. Protective Procedures: Media and Technology

**US-InterPARES Project**  
International Research on Permanent Authentic Records in Elec tronic Systems

## Benchmark Requirements (cont.)

5. Establishment of Documentary Forms
6. Authentication of Records
7. Identification of Authoritative Record
8. Removal and Transfer of Relevant Documentation

**US-InterPARES Project**  
International Research on Permanent Authentic Records in Electronic Systems

## Baseline Requirements

1. Controls over Records Transfer, Maintenance, and Reproduction
2. Documentation of Reproduction Process and its Effects
3. Archival Description

**US-InterPARES Project**  
International Research on Permanent Authentic Records in Electronic Systems

## Authenticity Findings

- Authenticity often expressed implicitly, rather than explicitly
- Medium is not significant in assessing authenticity of records
- Records are inextricably embedded in their contexts

**US-InterPARES Project**  
International Research on Permanent Authentic Records in Electronic Systems

## Appraisal Task Force

### Research Question:

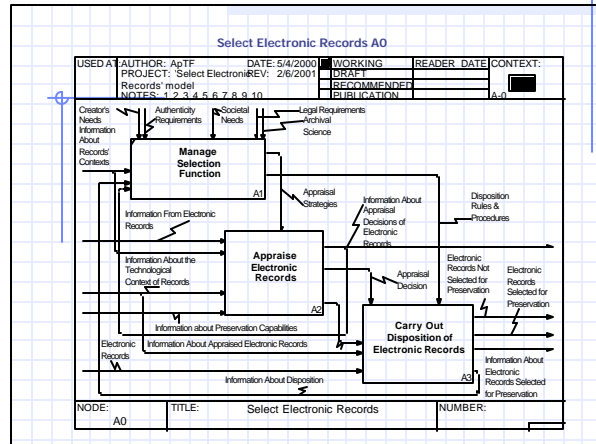

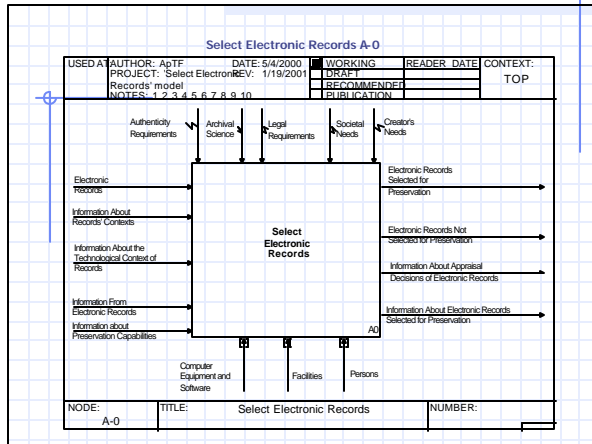

- How do we select electronic records for preservation?

### Research Methods

- Literature Review
- Activity Modeling

**US-InterPARES Project**  
International Research on Permanent Authentic Records in Electronic Systems

## Appraisal Findings

- ◆ Assess authenticity of the records
- ◆ Determine the feasibility of preservation
- ◆ Records must be appraised early
- ◆ The appraisal decision must be regularly monitored

**US-InterPARES Project**

International Research on Permanent Authentic Records in Electronic Systems

## Preservation Task Force

### Research Question:

- How do we preserve authentic electronic records?

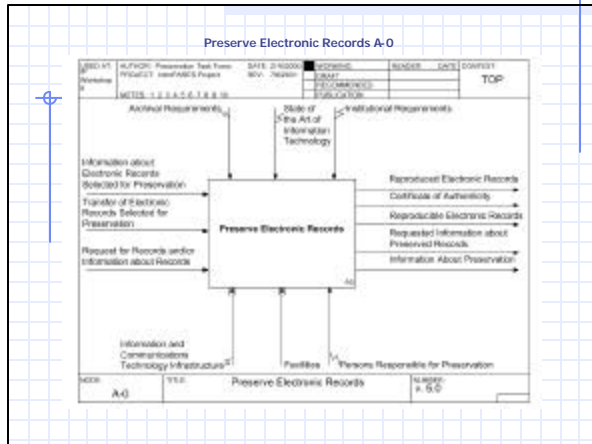

### Research Methods:

- Literature Review
- Surveys
- Case Studies
- Activity Modeling

**US-InterPARES Project**

International Research on Permanent Authentic Records in Electronic Systems

### Preservation Findings

- Identification of digital components of electronic records
- Systematic & dynamic controls for preservation
- Archival requirements for preservation

 **US-InterPARES Project**  
International Research on Permanent Authentic Records in Electronic Systems

### Preservation Findings (cont.)

- 'Original' electronic records vs. copies of electronic records
- Preservation means reproduction
- Chain of preservation

 **US-InterPARES Project**  
International Research on Permanent Authentic Records in Electronic Systems

## Strategies Task Force

### Research Question:

- What policies, strategies and standards will protect the authenticity of electronic records over time?

Adapt the recommendations of the other task forces to each national environment

**US-InterPARES Project**  
International Research on Permanent Authentic Records in Electronic Systems
